Davao del Sur, Davao Region, Philippines

## Summary

Visit My Portfolio Website: <https://webplices.com>

I'm offering you more than 6 years of productive knowledge in WordPress Development ( Elementor Pro , Hello Theme) , Project Management, Data Entry, Website Design. I've worked in the outsourcing industry as a website administrator for various companies like Amazon. In addition, I have been a Freelance WordPress website developer since January 2017, serving US,UK, Asia website creations. Tasks include building WordPress sites, creating Landing pages, ecommerce website. These experiences improved my traits as a team player, and critical thinking while resolving issues under pressure. I've worked with different companies and private individuals providing support and research for their websites and social media accounts and worked my way up from doing data entry to creating company website, procedures and policies, troubleshooting website errors, quality assurance and meeting the deadlines.

Personally, I like to work proactively with a positive attitude and focus on things that can contribute to the success of the company. Through these productive work experiences as a Freelance WordPress Developer in the digital era, I have learned to be innovative and dependable as I value time and trust given by my clients. My home office is prepared and equipped to meet the needs of working remotely.
