

KENT ANDREY F. AGUHOB

FULL-STACK DEVELOPER

0994-506-8423 | kent.andrey.aguhob@gmail.com | 1st Crumb Street, Digos City

PROFILE

Aspiring full-stack developer with hands-on experience across React, Next.js, Node.js, Laravel, TailwindCSS, Vite, and Flutter, gained through building complete multi-platform systems from the ground up. Experienced in designing both web and mobile applications, with a strong foundation in database management and a track record of taking projects from idea to a working, user-focused product. Eager to apply strong problem-solving skills and attention to detail in a professional development environment.

EXPERIENCE

IT Intern – Graphic Design & Digital Operations

March – June 2026

ePathways New Zealand & Exalt Property Accommodation (Auckland) — New Zealand

- Designed marketing visuals, posters, and listing graphics in Canva for accommodation and course promotions.
- Managed and distributed accommodation listings across Facebook groups, Meta Business Suite, and Instagram.
- Configured and migrated email templates in the LazyMagnet platform to improve layout and deliverability.
- Built and updated online forms in Google Forms for tenant data collection and screening.
- Encoded and proofread academic program details in the company admin system to ensure data accuracy.
- Assisted in data migration and system testing of the Exalt accommodation website.

Business Listing Associate

2020

Freelance — Online Work-from-Home

- Collected and verified geographic location data for multiple business listings.
- Recorded coordinates and property details in spreadsheets with consistent accuracy.
- Created and managed business entries through Bing Places for Business.
- Handled OTP verification using virtual phone lines to complete listing approvals.
- Maintained daily task quotas while ensuring correctness and timely submission.
