LIBERTY GAMAL

GRAPHIC DESIGNER

To whom it may concern,

Good day! My name is Liberty Gamal, and I am excited to apply for Virtual Assistant – Graphic Design position at your company. Although I am an undergraduate and have no prior VA experience, I am confident that my skills in graphic design and creativity can bring value to your team.

For the past few years, I have worked as a graphic artist, where I created logos, posters, tarpaulins, billboards, t-shirt designs, and signage. I also have hands-on experience in printing and layout preparation, giving me a practical understanding of how designs are used in real projects.

Here are some highlights of my skills:

- Proficient in Canva and basic design software
- Knowledgeable in logo and branding design
- Experienced in poster, t-shirt, and marketing material creation
- Basic printing operations (large format and apparel printing)
- Creative, detail-oriented, and always willing to learn new tools

I would love the opportunity to contribute my creativity and support to your team. I've attached my portfolio link for your review.

Thank you very much for considering my application. I look forward to the possibility of working with you.

Best regards,
Liberty Gamal
