PROFILE

I am a dedicated professional with experience in Amazon product research, data annotation, basic photo editing, and proficiency in tools like Keepa, AMZ Scout, and OS Addon. Specializing in identifying profitable products, I excel at analyzing market trends, tracking competitor performance, and providing actionable insights that help sellers optimize their product listings and increase sales. My expertise in product research includes conducting in-depth market analysis, evaluating product demand and competition, and uncovering opportunities for growth. With a strong commitment to delivering quality results, I bring enthusiasm, adaptability, and a keen eye for detail to every project.

WORK EXPERIENCE

Product Research

Aisle Arenas

2024 - 2025

- Seasoned product researcher with a focus on data-driven insights, leveraging tools like Keepa, AMZ Scout, and OS Addon to identify trends and opportunities in the e-commerce market.

Data annotation

Remotasks

2021 - 2024

- Experienced in labeling cuboids and attributes for 3D datasets, ensuring high-quality annotations for machine learning and AI projects.

Photo Editing

Skilled in photo editing, including background removal, image cropping, and enhancing visuals to meet project needs with precision and creativity
